

NEW SERVICE — A1 PAYROLL

A1 Payroll — for staffing agencies & end-clients in the Netherlands

Fully compliant A1 payroll for EU workers deployed in the Netherlands. Lower employer costs, higher net pay for workers, no WAB obligations and no back-office burden.

What is A1 payroll?

Under EU Regulation 883/2004, an A1 declaration certifies that a worker deployed cross-border continues to pay social security contributions in the sending country. For your Dutch operations this means significant employer cost savings while workers keep full legal coverage. Staal manages the full A1 lifecycle — application, compliance, monitoring and renewals — so you stay 100% compliant.

Four core advantages

Financial advantage — Social premiums are paid in the sending country. Lower labour costs for the employer, higher net income for the worker.

No WAB obligations — With an A1 declaration you can offer flexible contracts without the Dutch Wet Arbeidsmarkt in Balans burden.

No back-office required — We handle the full payroll process according to the collective labour agreement (CAO) for the relevant sector. You keep focus on your business.

Certified & secure — SNA certified, VCA*, ISO 9001:2015, Dutch G-account and quarterly WKA statements — full chain-liability protection for hirers.

Certifications & guarantees

- SNA certified (NEN 4400-1) — Stichting Normering Arbeid register
- VCA* — Safety, Health and Environment Checklist Contractors
- ISO 9001:2015 — Quality management
- G-account — Dutch blocked account for wage-tax deposits
- WKA statements — quarterly chain-liability declarations (Wet Ketenaansprakelijkheid)
